LM INTELAIATO

Design

The LM INTELAIATO collection is the new system of aluminium sliding doors from Logli.

It can accommodate 8 mm monolithic panes of glass or 4 + 4 mm laminate glass, surrounded by a structural aluminium frame.

The system is highly versatile, meaning that this product family is well suited for a wide array of architectural requirements within the home.

LM PORTA

Design

LM PORTA, simplicity and functionality for your sliding doors.
Explore the LM PORTA collection, with a square design and the same profile dimensions in all configurations.

Wall or ceiling fixing, with or without fixed glass, all in a 62 x 65 mm track.
In addition, the system can be fitted with a single damper per door panel which works when opening and closing.

LM VETRO

Design

LM VETRO a new look for one of LOGLI's most popular classics. Design, functionality and a fresh appearance with every installation option.

Available with versions without holes in the glass or with notch, for panels with dampers and synchronisation.

LM CLIPO

Design

The LM CLIPO 36 system combines versatility with small dimensions to create walk-in wardrobes and doors up to 1000 mm x 2100 mm.

Designed for glass thicknesses from 6 to 8 mm in two different configurations: with upper and lower glass-holder profile, model GPPK, or with upper glass-holder profile and U-shaped lower guide, model GPK.

The LM CLIPO 36 models can also be combined with the convenience of a soft close for doors weighing up to 36 kg.
